- SmoothTouch Digital Temperature Controls
- 2 OptiBin™ Humidity Crispers
- CustomCube™ Automatic Ice Maker
- IcePlus™ Accelerated Freezing Function
- Door Alarm
- LoDecibel™ Quiet Operation
- BioShield™ Anti-Bacterial Seal

ENERGY STAR

ENERGYSTAR® qualified models use at least 15% less energy than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect the environment.

PANORAMA™ FRENCH DOOR

Wide Open Spaces
Open all three doors and take a step back. The Side by Side style gives you a panoramic view of all your fresh food, while the gallon size bins, slide-out shelves, and OptiBin™ drawers give you plenty of organizational options. Look down below, and the Bottom Freezer offers an extra-large capacity that can even hold a large frozen turkey.

SmoothTouch Digital Temperature Controls
Ensure precise temperature control in the refrigerator and freezer compartments. Located on the outside of the refrigerator, the touch-sensitive digital controls also allow you to use the IcePlus™ function, monitor room temperature, and reset the water filter.

External Water Dispenser
Fresh cold filtered water is dispensed on the exterior of the refrigerator to provide convenience and save energy by not opening the door.

Tilt-A-Drawer™
The freezer door tilts downward approximately 45 degrees for easy access to the entire freezer compartment.

Glide N' Serve™ Drawer
Full width drawer with an OptiBin™ opening allows for easy storage of platters, cans and wines.

Multi-Air Flow Cooling
Vents are located on every shelf for even air distribution and longer lasting food freshness.

OptiBin™ Crisper
Optimizes humidity, extending life of most fruits and vegetables with the innovative Magic Crisper grid. The crisper lid automatically lifts out of the way when the door is opened.

BioShield™ Anti-Bacterial Seal
Unique feature prevents mold and mildew from building up on the door seal.
